

# **D-SPAN 2013** CALL FOR PAPERS

# CALL FOR PAPERS

## 4<sup>th</sup> IEEE Workshop on Data Security and Privacy in Wireless Networks In conjunction with WoWMoM 2013

### June 4, 2013 Madrid, Spain

## http://www.ee.washington.edu/research/nsl/DSPAN\_2013/

#### **General Co-Chairs**

- Guevara Noubir, Northeastern University (noubir at ccs.neu.edu)
- Krishna Sampigethaya, Boeing Research & Tech. (radhakrishna.g.sampigethaya at boeing.com)

#### **TPC Co-Chairs:**

- Levente Buttyán, Budapest University of Technology and Economics (buttyan at crysys.hu)
- Loukas Lazos, University of Arizona (llazos at ece.arizona.edu)

#### **Steering Committee:**

- Sajal Das, University of Texas at Arlington (Chair)
- Radha Poovendran, University of Washington

#### Program Committee Members: TBD

- Gergely Acs, INRIA Grenoble, France
- Basel Alomair, KACST, Saudi Arabia
- Tansu Alpcan, University of Melbourne, Australia
- Yannis Askoxylakis, FORTH-ICS, Greece
- Erik-Oliver Blass, Northeastern University, USA
- Mauro Conti, Unversity of Padua, Italy
- Reza Curtmola, NJIT, USA
- Roberto Di Pietro, Università di Roma Tre, Italy
- Yuguang Fang, University of Florida, USA
- Murtuza Jadliwala, Wichita State University, USA
- Albert Levi, Sabanci University, Turkey
- Ming Li, Utah State University, USA
- Donggang Liu, UT Arlington, USA
- Di Ma, University of Michigan-Dearborn, USA
- Ivan Martinovic, University of Oxford, UK
- Melek Önen, EURECOM, France
- Kui Ren, SUNY at Buffalo, USA
- Tao Shu, Oakland University, USA
- Patrick Tague, Carnegie Mellon University, USA

The 4<sup>th</sup> IEEE International Workshop on Data Security and PrivAcy in wireless Networks (D-SPAN) will be held in conjunction with the 14<sup>th</sup> International Symposium on a World of Wireless, Mobile and Multimedia Networks (WoWMoM). The workshop focuses on research developments related to data security and privacy in wireless and mobile networks. This workshop solicits papers from two main categories: (1) papers that consider the security and privacy of data collection, transmission, storage, publishing, and sharing in wireless networks broadly defined, e.g., MANET, cellular, vehicular, ad hoc, cognitive, and sensor networks; and (2) papers that use data analytics to address security and privacy problems in wireless networks. The workshop provides a venue for researchers to present new ideas with impact on three communities – wireless networks, databases, and security.

Topics of interest include, but are not limited to:

- Secure Localization and location privacy
- Privacy and anonymity in wireless and mobile networks
- Secure query processing, data collection, and aggregation for wireless sensor networks
- Secure and private data streaming
- Key extraction, distribution, and management in wireless networks
- Secure data processing in mobile ad-hoc networks (MANET)
- Secure data collection in body-area networks
- Throughput-security tradeoffs in wireless networks
- Wireless and mobile security for health and smart grid applications

### IMPORTANT DATES

- Paper submission deadline: March 13, 2013
- Notification of acceptance: April 10, 2013
- Camera-ready papers due: April 21, 2013
- Workshop date: June 4, 2013 (in conjunction with WoWMoM 2013)

#### Paper submission instructions:

Submitted papers must be at most **6 pages** inclusive of all references and figures. Papers should report completed results and must not be previously published elsewhere or currently under review for any other publication. Vision papers and descriptions of work-in-progress are also welcome as short paper submissions (**4 pages**).

Papers must be written in English, and formatted according to the WoWMoM Proceedings format. All accepted papers will appear in the conference proceedings published by the IEEE Computer Society Press. Consequently, each accepted paper needs to have a registration to the conference (a no-show will result in exclusion of the corresponding paper from the IEEE Digital Library).

Paper submission website: http://edas.info/N14019
